

Monitoring EU Agri-Food Trade: Development in 2017

2017: another record year for EU agri-food exports

For the year 2017, **EU agri-food exports reached a record value of EUR 137.9 billion**, corresponding to a sustained increase by 5.1 % in value terms compared to 2016.

Major gains in annual values have been achieved in agri-food exports to the **USA** (EUR +1.22 billion; +6%), **Russia** (EUR +892 million; +16%) and several **Asian markets**: Japan (EUR +645 million; +11%), China (EUR +591 million; +5%), Hong Kong (EUR +366 million; +10%) and Korea (EUR +341 million; +13%). Further annual increases were recorded

in agri-food exports to Turkey (EUR +456 million; +14%) and Switzerland (EUR +333 million; +4%), while increases of more than EUR 200 million also took place in exports to Philippines, Ukraine and Australia in the last twelve-month period.

2017 export values remain down for **North African** and **Middle East** destinations mainly due to less exports in cereals), in particular Saudi Arabia (EUR -532 million; -12%), Egypt (EUR 0.448 million; -25%), Morocco (EUR -176 million; -10%), Libya (EUR -163 million and Algeria (EUR -154 million; -6%) Agri-food exports to Vietnam and the United Arab Emirates also went down appreciably in 2017.

Exports of **wine** (EUR +1.24 billion; +12%), **milk powder** (EUR +926 million; +26%), **infant food** (EUR 722 million; +11%), **pet food** (EUR +602 million; +17%) and **spirits and liqueurs** (EUR 538 million; +5%) performed very well over the last twelve months.

The main destination for **EU wine exports** is the **USA**, followed by China, Switzerland, Canada, Japan and Hong Kong. Exports to the USA further increased over the last 12 months, however, in relative terms, exports to **Russia** and **Canada** showed a much more dynamic development.

On the other hand, **wheat and other cereals** exports experienced the largest drop in value terms on an annual basis (EUR -1.5 billion; -27.5% and EUR -256 million; -13.5%). Also **pork meat** fresh, chilled and frozen recorded a reduction in export values greater than EUR 0.1 billion) over the last 12 months.

EU agri-food imports increasing, but at a slower pace than exports: new surplus record in agri-food trade

Agri-food imports from third countries in 2017 accounted for EUR 117.4 billion, i.e. an increase by 4.5% compared to 2016 data. Nevertheless, driven by the stronger export performance over the 12-months period, **the export surplus** now stands at **EUR 20.5 billion**, which represents a growth of 9% over last year and the 8th consecutive year of agricultural trade surplus.

EU agri-food imports from Indonesia and Ukraine increasing most

On the other hand, the value of imports from **Indonesia** and **Ukraine** increased most significantly (EUR +1.4 billion; +34% and EUR 1.2 billion; +27%, respectively). Over the 12 months period, EU imports of agri-food products also went up for India, Australia, China Morocco, Colombia and Vietnam by EUR 240-640 million.

Main origins for EU agri-food imports over the past 12 months are **Brazil** (EUR 11.8 billion), the **USA** (EUR 11.0 billion), **Argentina** (EUR 5.7 billion), followed by Ukraine China, Indonesia, Switzerland and Turkey, each accounting for between EUR 4.5 and 5.5 billion.

On the year-on-year basis, the value of agri-food imports fell most from **Ghana** (EUR -336 million or -20%) and **USA** (EUR 239 million or -2%) Imports also fell by around EUR 120-190 million from each of the three top Latin American import origins, namely **Uruguay** (-24%), **Argentina** (-3%) and **Brazil** (-1%). Similar reductions were recorded for imports from Turkey (EUR -153 million) and Russia (EUR -128 million).

Looking at product categories, the highest increases in import values in 2017 were recorded for **palm oil** (EUR +1.1 billion; +19%), **fatty acids** (EUR +895 million; +56%), **cereals** other than wheat & rice (EUR +742 million; +32%), (**oilseeds** other than soybean (EUR +704 million; +21%), and **tropical fruit** (EUR +679 million; +5%).

However, import values decreased in particular for **cocoa beans** (EUR -738 million; -15%), **soya beans** (EUR -370 million; -7%), and **meat preparations** (EUR -212 million; -10%).
